Spend a week with us and learn why the Michigan wrestling team is consistently one of the top programs in the country!

We have an outstanding staff, and we teach the most successful current techniques used by elite wrestlers. **One of the areas that separates our technique camp from others is the fact that - you the wrestler - will be able to choose the area of wrestling instruction that you desire to concentrate on during the course of the week (see areas of concentration below).** Additionally, we feature tours, guest lectures, tournaments, rec. games etc., which will guarantee a successful week for any young wrestler who aspires to be better. This camp also features an on-going individual wrestling tournament throughout the week. Teaching winning technique is our primary purpose, but providing a "total clinic experience" is also important. **Areas of concentration: Leg Takedowns * Other Takedowns * Riding and Pinning * Escapes and Reversals * Counter Offense * Leg Wrestling from Top.** Visit our website for more detailed descriptions of technique concentrations.

The Advanced Training Camp brings together the University of Michigan coaching staff's proven teaching methods combined with a first-class learning environment. Every session will be handled with the same thoroughness we apply to our own team practices. U-M wrestlers will train with you! In addition, special sessions on important areas of sport science, such as mental preparation, film analysis and nutrition will be addressed throughout the camp. Designed for the serious wrestler, the camp will teach wrestlers how to prepare themselves physically as well as mentally to win the big matches. The Advanced Training Camp is a very challenging camp, therefore all camp participants are strongly encouraged to attend in good shape. We emphasize an aggressive, tough style of wrestling and reinforcement of sound wrestling principles through repetitive drills.
